

RECORD RETRIEVAL MADE EASY.

MICROFILM | **MICROFICHE** | **APERTURE CARDS**

Take Advantage of our special pricing grant program today! Replace that outdated microfilm reader/printer for a brand new ViewScan 4 digital microfilm scanner.

The future of microfilm scanning has never been so CLEAR

VIEWSCAN 4 THE CLEAR CHOICE MICROFILM SCANNER

EASY-TO-USE FEATURES

18 MEGAPIXEL CAMERA, IT'S ALWAYS ON.

All the megapixels, all the time. ViewScan's true 18 megapixel image sensor delivers real time images, continuously while intuitive technology keeps your images in **PerfectFocus**.

NEW USER FRIENDLY INTERFACE

The ViewScan 4's new **ST PerfectView** software is more user-friendly than ever before. Innovative color coded operations make **Browsing**, **Editing**, and **Sharing** simple and easy-to-use!

ENERGY SAVING HARDWARE DESIGN

We have incorporated product designs and materials not detrimental to the earth and features like **automatic Sleep Mode** and **power down functions**.

ON BOARD PC OPTION

A first time innovation, only ST Imaging offers a micro PC that is securely fixed to the base of the ViewScan 4. Preloaded in the factory with the software you selected the scanner is ready to perform right out of the box!

SAVE MONEY WITH ST IMAGING'S 2019 SPECIAL PRICING PROGRAM!
